Redefine Properties awarded for excellence in reporting

For the second time this year, Redefine has been recognised for the quality of its integrated reporting when the company received Nkonki Top 100 JSE Integrated Reporting Awards for its 2014 Integrated Annual Report.

Redefine was ranked joint sixth overall out of the Top 100 JSE listed entities at a function held last week and also received an Excellence Award for achieving an A-rating (above 80%) for its Integrated Annual Report.

The Nkonki awards recognise those JSE listed companies who are committed to adopting the internationally recognised Integrated Reporting Framework devised by the International Integrated Reporting Council.

In August 2015, Redefine was also ranked sixth in the top ten positions in the EY's Excellence in Integrated Reporting Awards 2015, improving on its 2014 merit award for the most improved integrated annual report.

Commenting on the award, Redefine Financial Director Leon Kok says, "*This award is yet another achievement in a watershed year for us, which includes being listed in the JSE Top 40 for the first time. To receive two awards for excellence in integrated reporting is testimony to our commitment to transparent stakeholder communication in all of our reporting.*"

He adds "Our integrated annual report represents an opportunity for us to share our story of value creation and business strategy as well as our plans to align environmental and social challenges and opportunities with our stakeholders. We are therefore extremely pleased to receive recognition that our integrated reporting journey is on the right track and encourages us to strive for further improvement."
