**Redefine takes top honours at the Chartered Secretaries Integrated Reporting Awards 2018**

On Wednesday, 14 November, Redefine Properties was once again recognised for its integrated report, emerging as the overall winner at the Chartered Secretaries Southern Africa (CSSA) Integrated Reporting Awards 2018.

Held at Montecasino, the event is hosted annually by CSSA in partnership with the JSE, and serves as one of the longest-standing reporting awards in the country, having recognised excellence in corporate reporting since 1956.

Adjudicated and awarded by a panel of expert judges, it is one of the most prestigious accolades for integrated reporting in South Africa. Reports are assessed against a stringent scoresheet based on the International Integrated Reporting Council's framework. Unlike other awards, the emphasis is on peer-to-peer comparison, as entry is open to all companies and organisations - from large JSE-listed organisations and state-owned enterprises to the smallest NGOs.

"This recognition is testament to our longstanding commitment to transparency and accountability. We are delighted to have been recognised as meeting and exceeding the high standards set by our peers and are further encouraged to continuously challenge ourselves to improve our communication and reporting to meet the needs of all our stakeholders," says Leon Kok, Financial Director.
