Reaping rewards from strong commitment to excellent integrated reporting

Our commitment to excellent integrated reporting continues to bear fruit with a consecutive second ranking among the top 100 JSE listed companies for the excellence of our integrated reporting.

After consistently placing in the top 10 in the EY Excellence in Integrated Reporting Awards since 2015, we broke through to reach second place last year - a feat we are proud to have replicated this year, with honours. Redefine was the only REIT that featured in the top 10.

The rankings are based on how well companies explain to stakeholders how they create value over time.

At Redefine, transparent disclosure forms a key cornerstone upon which trust is built and keeps us on course to live the Redefine values and generate sustained value for all our stakeholders.

This accolade shows that sustainability is not just a buzz word for us, but a dedicated business approach that is centred on balancing short-term decisions and long-term outcomes to create meaningful, sustained value for all our stakeholders. Our integrated report provides us with a one-stop platform to engage with all our stakeholders and offer them a window into how we are creating value both inside and outside of the company.

According to the adjudicators, the best reports need to provide an understanding of short- to long-term risks while providing an excellent description of the group's business model, including primary business activities as well as the outcomes.

We are delighted to have met these high international benchmarks and are more motivated than ever to continuously align our business to meet the needs of all our stakeholders in an impactful way.
